Numerical Weather Forecast Workshop

Department of Physics, Atmospheric Sciences, and General Science
Jackson State University, Jackson, MS

General Eligibility: Undergraduate students, graduate students majoring in atmospheric science or in related fields; Researchers and Faculties interested in numerical modeling, synoptic and weather observations.

General description: A five-day workshop focusing on the introduction of numerical weather forecast, Weather Research and Forecast (WRF) installation and real-time running. The speaker from NCEP/NOAA, FSL/NOAA, and UIUC are expected to present their studies in this field. An detailed hand-on session for WRF modeling will be provided.
